

# ORGANIC MATTER BIOCATALYST

# Omenzym

**A SYNERGY OF PLANT EXTRACTS THAT HUMIDIFIES AND MINERALISES ANY TYPE OF ORGANIC MATTER. ITS CONTENT'S EXPONENTIAL ACTIVATION RATE MAKES IT ONE OF A KIND.**

- Eliminates bad odours
- Activates and increases the decomposition processes of organic matter
- Stabilises pH levels, descales and sanitises
- Facilitates compliance with tab. pursuant to Legislative Decrees 152/99 and 258/2000
- Reduces the plants' operational and maintenance costs
- Reduces sludge in treatment plants and Imhoff tanks
- Turns agroindustrial production waste into fertilisers
- Keeps sewers clear and prevents insects and rats
- Eliminates the need for other products such as chlorine, anti-foaming agents, creolin and soaps

## For blockedsewers and septic tanks

- Less unblocking required, saving money
- Eliminates bad odours
- Keeps the environment clear without the need to disinfect
- You can turn the sewage from your septic tank into an organic soil conditioner for your garden or vegetable plot
